

We're a Gold Winner!

The Palace at Weston is the proud recipient of Gold Coast Builders Association's prestigious Prism Award for 2021.

The Community won Gold in the "Multi-family New Construction over \$1 million" category. The Palace Group's President Helen Shaham said, "It's very gratifying being recognized by the housing industry's judges for outstanding architecture and interior design."

The Palace features three distinct buildings designed under one roof. Each building is geared toward different levels of care while reflecting the same aesthetics, helping residents transitioning through the continuum of care to feel more comfortable in their surroundings. Underground parking, a rarity in South Florida, accommodates parking for residents, staff and families.
